

sabs colours 1091

Fri, 09 Nov 2018 13:13:00 GMT sabs colours 1091 pdf - The Natural Color System (NCS) describes colour perceptions that appear to belong to the surface of a material, provided the surface is not perceived to be metallic or fluorescent. The system does not include colours that appear to belong to translucent or luminescent objects (so-called volume colours and luminous colours), nor does it include other visual properties of the surface layer, such as gloss and texture. Mon, 12 Nov 2018 07:33:00 GMT SANS 1091:2012 (Ed. 2.01) - SABS Webstore - can be obtained from the SABS Standards Division. BS 6923, Method for calculation of small colour differences . SANS 3668/ISO 3668, Paints and varnishes Visual comparison of the colour of paints. SANS 5137, Paints and varnishes Daylight 45°, 0° luminous directional reflectance of surface coatings and pigments. Fri, 09 Nov 2018 11:54:00 GMT SOUTH AFRICAN NATIONAL STANDARD - SABS Webstore - SABS provides a range of standards covering the demands of the Paints & Sealants industry, from quality management systems to test methods for specific materials or parts. These will help your organization to enhance customer satisfaction, meet regulatory, safety and reliability requirements, and

ensure consistency of quality throughout the supply chain.
